

PERGOLA TENT

The 10' x 10' Pergola tent is ideal for establishing a strong theme for your event.

The Pergola is modular, allowing you to have an array of combinations; the most popular being the double, triple and quadruple Pergolas.

You can utilize 5 foot wide Raj connecting canopies to extend the footprint to accommodate long banquet table settings, which are so much in vogue at the moment. Alternatively, Pergolas set up in a row can create a stylish walkway to lead your Guests into your event.

The Raj Tents' Pergola brings color and distinction to your ballroom events, immediately personalizing the space by adding structures on a different elevation to turn a familiar space into an individual one for your celebration. So indoors or out, this is a perfect fit for any event.

GRAND PAVILION TENT

The Grand Pavilion is a steel framed self-supporting tent for inside and out; just the thing to set off your themed event or provide you with a sophisticated focal point for an elegant social gathering.

The octagonal Grand Pavilion Tent is 20 feet in diameter; great to cover and swathe a food service station, wedding cake table or dessert bar, dance floor, lounge furniture setting or intimate dinner.

The octagonal shape offers a lot of architectural interest, is very photogenic, and quickly sets the scene as a great themed party tent. Employed in a ballroom, foyer, or large event space, the Grand Pavilion's shape looks great from above too, giving the event designer a special feature for instant impact.

MAHARAJA & GRAND MAHARAJA

Ideal as a fashionable beach or lawn tent, a stunning wedding tent or exotic themed lounge tent, the regal Maharaja conveys an aura of the majesty of days gone by and is also perfect for a refined, romantic setting.

The Maharaja tent is a traditional pole tent, which requires staking and comes in two sizes. The standard Maharaja is 20' x 34' and the Grand Maharaja, is 27' x 44'.

Each Maharaja tent includes the option for contrasting exterior and interior colors and patterns. The Maharaja also comes with scalloping, pole covers and drapes, allowing flexibility to get just the look you want. Choose from the classic ivory, dove egg blue, lavender or deep red exteriors. Interior liners are available in a variety of print and color combinations, including celeste blue, honey glow beige, dove egg & sand and ivory. Select from a large choice of drapes to either compliment or contrast against the lining, allowing you to bring more colors in for matching with your linens, flowers and other elements.

For a larger gathering, multiple Maharajas can be fitted together to create a continuous space. Alternatively, several individual Maharajas can be set up together to form a matchless, highly interesting installation.

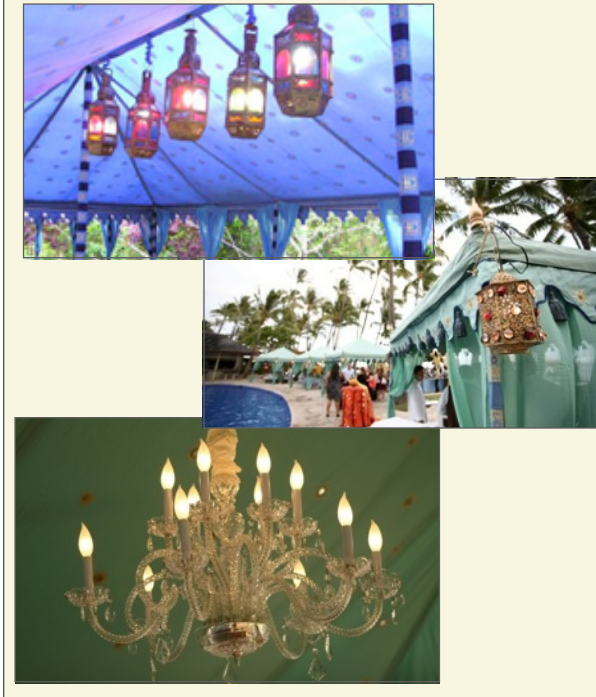

GRAND OTTOMAN TENT

The iconic Ottoman Pavilion is the ultimate Moroccan party tent, used to immediately establish a strong theme for your event. Used for Moroccan lounge seating areas, food service stations or to frame VIP dining areas, the Ottoman sets the scene perfectly.

With the Moroccan theme a perennial favorite, the Ottoman gives you a strong element around which to base your décor. Built on the same 20' diameter steel frames as the Pavilion, the Ottoman pavilion installs inside or out on any surface. Most popular 'lounged-out' with low furniture, lighting and accessories, the Ottoman is one of a kind.

The Ottoman pavilion has a flame red exterior and interior with woodblock printed and mirror embroidered interior. As an alternative to traditional scalloping the Ottoman comes with a banded appliqué band in the same red, celeste blue and sand as the banded pole covers. What makes this pavilion stand out particularly are the open gold trimmed and gold star printed arches on each of its 8 sides.

LIGHTING

Raj Tents' lighting accents complete the look, using Moroccan or Indian themed lamps or crystal chandeliers hanging from the center ridge pole. In addition, Raj Tents, offers decorative perimeter lights hanging from brass brackets on the outside of the tent as well as different sized spotlights for the interior of the perimeter poles to provide a filtered light across the ceiling.

FURNISHINGS

Raj Tents' range of low furniture with corresponding cushion and bolster covers, together with matching hand woven dhurrie accent rugs, give you an exciting seating alternative to traditional chairs and tables.
